

## We're Doubling the Propane Rebate

October 2010

Clearwater Gas propane customers are now eligible to receive **up to \$750** (in incentives) when replacing an existing propane water heater. Now, for a limited time the Propane Education Foundation of Florida is offering residential propane water heater rebates to promote safe propane water heater installations.

Clearwater Gas propane customers will receive a \$300 propane rebate in addition to the Clearwater Gas customer rebate (up to \$450) when purchasing a residential propane water heater from Clearwater Gas as follows:

Residential propane gas customers who purchase a "tank-type" propane water heater will receive a \$650 rebate when purchasing the water heater from Clearwater Gas.

Residential propane gas customers who purchase a "tankless" propane water heater will receive a \$750 rebate when purchasing the water heater from Clearwater Gas. **For complete details, contact Clearwater Gas Sales at (727) 562-4980! Note: certain restrictions apply.**
